

HYBRID ADVANTAGES

- High-yielding silage hybrid
- Excellent stress tolerance extends harvest window
- Plant at lower populations to maximize true potential
- Big, girthy ears with deep kernels on a white cob

Ear Type: F= Flex, D= Determinate

POSITIONING & MANAGEMENT

LH 5062 GT/LFY is a very high-yielding silage corn that is excellent under stress. It features a big, girthy ear on a white cob. It maintains tonnage levels even at lower planting populations by increasing stalk and ear size. Position it as a full-season hybrid. Its not intended for use as a grain hybrid.

Highly Productive & Irrigated Fields		High Population Recommended	
Moderately Productive/Average Fields		Medium Population Recommended	
Less Productive/Stressed Fields		Low Population Recommended
